

PROFESSORS & EMPLOYERS SUPPORTING SIGMA TAU OMEGA

Dear Employer,

I am writing to inform you of _____ involvement with Sigma Tau Omega, a 501c3 Non-Profit organization committed to building leaders for the future of America while supporting citizens in need.

This dual mission calls for _____ to miss work from time to time to support communities affected by natural disasters. Please understand that his role is critical to mission accomplishment. We realize that an employee missing for a day or two of work can cause you and your managers headaches. Realize that by supporting the Ranger's commitment to the community you are supporting the community yourself; which makes you and your firm a good corporate citizen. . We ask that you support the Ranger and his responsibilities to the community when his fellow citizens are in need.

When a disaster strikes a community it is up to the member to notify you as well in advance as possible. Within hours of a disaster the member receives an email called a "Warning Order" which gives a brief description of what has happen and possible response scenarios. It is during this time the member should notify you. When a warning order is issued it is posted on the public section of the Sigma Tau Omega website. The website address is www.sigmatauomega.org.

Should you have any questions and concerns, please feel free to contact the PESSTO coordinator for the chapter or email info@sigmatauomega.org.

Thank you for your support!

Shawn Murphy
