

PROFESSORS & EMPLOYERS SUPPORTING SIGMA TAU OMEGA

Dear Professor,

I am writing to inform you of _____ involvement with Sigma Tau Omega, a 501c3 Non-Profit organization committed to building leaders for the future of America while supporting citizens in need.

This dual mission calls for _____ to miss class from time to time to support communities affected by natural disasters. Please understand that his role is critical to mission accomplishment. We understand your cause for concern as we understand the paramount responsibility of a collegiate member's duty at school is academics. Sigma Tau Omega supports this responsibility by providing time management training, academic mentoring support and more. We ask that you support the Ranger and his responsibilities to the community when his fellow citizens are in need.

When a disaster strikes a community it is up to the member to notify you as well in advance as possible. Within hours of a disaster the member receives an email called a "Warning Order" which gives a brief description of what has happen and possible response scenarios. It is during this time the member should notify you. When a warning order is issued it is posted on the public section of the Sigma Tau Omega website. The website address is www.sigmatatauomega.org.

Should you have any questions and concerns, please feel free to contact the PESSTO coordinator for the chapter or email info@sigmatatauomega.org.

Thank you for your support!

Shawn Murphy
